

## INDEX TO VOLUME 10

The asterisk (\*) preceding the page number indicates an original article in the Archives. Author entries are made for original articles, correspondence and society transactions. Subject entries are made for all articles. Book Reviews, Obituaries and Society Transactions are indexed under these headings in their alphabetical order under the letters B, O, and S, respectively.

PAGE	PAGE
<b>Abnormality:</b> See Anomalies and Deformities; and under names of organs and regions	
Abortion, criminal, by intra-uterine injection of fluids	977
forensic significance of gaseous decomposition after	978
Abscesses, multiple, pulmonary, simulating tuberculosis caused by Friedländer bacillus	340
pulmonary, atelectasis in pathogenesis of	457
Achylla gastrica, etiologic relationship of, to pernicious anemia	937
Acid, fatty, nature and rôle of fatty acid essential in nutrition	607
lactic, content of muscle after death caused by experiments with insulin	298
Acid-base equilibrium; is it possible to produce permanent change in acid-base balance?	470
Acromegaly, hyperplasia of female genital tract in	119
Actinomycetes-like tonsillar granules, organism of	474
Actinomycosis of heart; report of case with actinomycotic emboli	*687
of stomach, primary	319
Addison's Disease associated with congenital absence of suprarenal glands	*38
statistical analysis of 566 cases and study of pathology	*742, *895
with selective destruction of suprarenal cortex	*499
Adenoma and adenocarcinoma hepatocellulare hematoxylinicum	332
calcification in pituitary adenoma	119
multiple, malignant, of kidney	975
of thyroid, blood vessel invasion in	163
pituitary, with gynecomastia	120
significance of lymphoid tissue in exophthalmic goiters and so-called toxic adenomas	163
tubular and solid testicular tumors of ovary	813
Adenomyosis, tubal, and salpingitis isthmica nodosa	306
Adiposogenital Syndrome: See Pituitary Body, disease	
Adler, N. H.: Placenta increta	643
Adrenals: See Suprarenals	
Advanced Study, Institute for	448
Agglutination, mechanism of specific precipitation and	968
isohemagglutination, hemolytic index and heterohemagglutination	485
tests, zone phenomenon in	485
Agglutinins, agglutinogens of human blood	970
and precipitins in blood of gravid and puerperal women, fluctuation of	326
inheritance and racial distribution of agglutinability properties of human blood	321
iso-agglutinins in pericardial fluid	149
Agglutinins—Continued	
physicochemical properties of iso-agglutinins and mechanism of iso-hemagglutination	628
quantitative studies of human iso-agglutinins	629
toxicity of human serum for guinea-pig as affected by agglutinins	140
Agranulocytosis; agranulocytic blood picture in conditions other than angina	301
leukopenia resembling	937
Air in blood following contusion of chest	977
Albuminuria, choroiditis albuminurica	799
Alcohol, experimental acute alcoholic gastritis	792
Allergy: See Anaphylaxis and Allergy	
Alternaria, asthma due to	138
Amblyopia: See under Blindness	
American Journal of Cancer	786
Journal of Clinical Pathology	936
Amino-acids; metabolism in health and disease	453
Ammonia, effect of removal of liver on formation of	451
Amyelia: See under Spinal Cord	
Amyloidosis, generalized, of muscular system	455
isolated, of seminal vesicles	470
myocardial, primary	455
of kidney in cattle	469
of thyroid	459
Anaerobes, pathogenic spore-bearing anaerobes in carcasses of sheep	315
Anaphylaxis and Allergy; activity of reticulo-endothelial system in	975
allergic testis reactions in guinea-pigs with coccidioidal granuloma	322
anaphylactic reaction of isolated uterus of rat	974
anaphylactic sensitization of guinea-pigs to streptococcal filtrates and to unincubated broth	326
effects of mercurochrome and milk protein upon	965
etiological grounds for separating different forms of hypersensitivity with special reference to anaphylaxis, atopy (hay fever-asthma group) and tuberculin type	493
experimental allergic arthritis	627
fatal human anaphylactic shock	939
identity of animal anaphylaxis and human allergy (protein hypersensitivity)	152
intradermal sensitization of guinea-pigs	965
tuberculo-allergy in skin transplants	623
Anemia, Bartonella canis (a new cause of anemia)	806
blood regeneration in	788
effects of, on cerebral cortex of cat	794
influence of vitamin B on inanition anemia and bacteremia of rice disease in pigeons	606
of rice disease in pigeons, influence of iron on	605
pernicious, action of liver diet on	468
pernicious, effect of single massive doses of liver extract in	789
pernicious, etiologic relationship of achylia gastrica to	937
pernicious, some forms with known etiology	454
protective effect of splenic transplants in albino rats against Bartonella muris anemia	156
